Third Party Risk Management Policy

Date: 6/1/2026

Ver. 1.4

Approved BY:

Sabah Khaled Al Ghunaim
Chairman

شركة شبكة الخدمات الآلية
Automated Services Network Co.

Contents

1. Purpose

This Third-Party Risk Management (TPRM) Policy establishes the governance framework through which Automated Services Network Company - eNet, as a licensed Large E-Money Service Provider (LESP), identifies, assesses, manages, monitors, and exits risks arising from its relationships with third parties. The objective is to ensure that outsourcing and third-party arrangements do not compromise financial stability, customer protection, data confidentiality, regulatory compliance, or operational resilience.

This Policy is designed to align with the expectations of the Central Bank of Kuwait (CBK) and applicable international best practices.

2. Scope

This Policy applies to:

- All third parties engaged by eNet, whether domestic or international
- All stages of the third-party lifecycle (onboarding, operation, renewal, and exit)
- All business units, subsidiaries, and functions of eNet

This Policy covers both contractual and non-contractual arrangements where services are provided to, or on behalf of, eNet.

3. Definitions

Third Party: Any external entity that provides services, technology, infrastructure, data processing, or operational support to eNet.

Critical Third Party: A third party whose failure or disruption could materially impact payment services, customer funds, regulatory compliance, data security, or eNet's ability to operate.

Outsourcing: An arrangement whereby a third party performs a process, service, or activity that would otherwise be undertaken by eNet.

4. Regulatory and Standards Alignment

This Policy aligns with, but is not limited to:

- Central Bank of Kuwait regulations and supervisory guidance
- Operational Resilience principles
- PCI DSS requirements
- - ISO/IEC 27001, ISO 22301, ISO 31000
- Applicable data protection laws

5. Governance and Responsibilities

5.1 Board of Directors

- Approves this Policy and any material amendments
- Oversees third-party risk exposure and concentration risk
- Ensures adequate resources are allocated for effective implementation

5.2 Senior Management

- Implements the Policy across the organization
- Ensures compliance with regulatory requirements
- Escalates material third-party risks to the Board

5.3 Risk and Compliance Function

- Maintains the third-party risk framework
- Conducts risk assessments and due diligence
- Monitors ongoing compliance and performance

5.4 Business Owners

- Identify third-party dependencies
- Ensure services are delivered in line with contractual obligations
- Report incidents and performance issues

6. Third-Party Risk Classification

All third parties shall be classified based on risk and criticality:

Category	Description
Critical	Direct impact on payments, customer funds, core systems, or regulatory compliance
High	Access to sensitive data or production systems
Medium	Operational support with limited system or data access
Low	No access to sensitive data or critical systems

Risk classification determines the level of due diligence, monitoring, and approval required.

7. Due Diligence and Onboarding

Prior to engagement, eNet shall perform proportionate due diligence, including:

- Financial viability assessment

- Regulatory and licensing review (where applicable)
- Information security and data protection controls
- Business continuity and disaster recovery capabilities
- Sub-outsourcing arrangements

Evidence may include certifications, audit reports, policies, and independent assessments.

Critical and High-risk third parties require formal risk approval before onboarding.

8. Contractual Requirements

All third-party contracts must include, as applicable:

- Defined scope of services and SLAs
- Confidentiality and data protection obligations
- Incident and breach notification timelines
- Right of audit and regulatory access
- Business continuity and disaster recovery obligations
- Restrictions on sub-contracting
- Termination and exit provisions

Contracts with Critical Third Parties must be reviewed by **Legal and Compliance** functions.

9. Ongoing Monitoring and Review

ENet shall monitor third parties throughout the engagement lifecycle, including:

- Periodic performance and SLA reviews
- Annual risk reassessments for Critical and High-risk vendors
- Review of security posture and compliance status
- Tracking of incidents, breaches, and remediation actions

Monitoring frequency is risk-based.

10. Incident Management

Third parties must notify eNet of any incident that may impact services, data, or customers within agreed timelines.

ENet shall:

- Assess impact and regulatory notification requirements
- Coordinate response and remediation
- Document and report incidents internally and to regulators where required

11. Concentration and Dependency Risk

ENet shall identify and manage concentration risk arising from:

- Over-reliance on a single third party
- Geographical or systemic dependencies

Mitigation measures may include alternative providers, contingency plans, or contractual safeguards.

12. Exit Strategy and Business Continuity

For Critical Third Parties, documented exit plans must be maintained, including:

- Data return or secure destruction
- Knowledge transfer and transition support
- Continuity of service during migration

Exit strategies shall be tested periodically where feasible.

13. Record Keeping and Reporting

ENet shall maintain:

- An inventory of all third parties
- Risk assessments and due diligence records
- Contracts and amendments
- Monitoring and incident reports

Records shall be made available to the Central Bank of Kuwait upon request.

14. Policy Review

This Policy shall be reviewed at least annually or upon material regulatory or business changes.

15. Approval

This Policy is approved by the Board of Directors and is effective from the date of approval.
